Mr. Caplivski greeted the attendees and provided a PowerPoint presentation (attachment) on their audit plan process for CSCF's year ended 16-17. Mr. Caplivski reviewed the conduct of the audit, status and timing, and interim results. Mr. Caplivski stated they are done with the interim process (with no findings) and will be doing fieldwork this week. They expect to have a draft report for the Board by 10/31/17. Agenda	Торіс	Action Item / Follow Up Item
Item	Business Matters of the Finance C	lommittee
1	Welcome	
	Dr. Sarnovsky called the meeting to order at 2:25 pm and welcomed those in attendance.	
2	Roll Call / Establishment of Quorum Ms. Kasal reported that there was no quorum present.	
3	Public Comment None Offered.	
4	Approval of Minutes As there was not a quorum present, the Committee concurred to defer the approval of the 6/12/17 Finance Committee meeting minutes to the next meeting.	
5	Information/Discussion/Action Items	
	 <u>Review of the Finance Committee Charter</u> Mr. Alvarez referred to the Finance Committee Charter (attachment) and stated, as mentioned with the Audit Committee, that each committee reviews their respective charters on an annual basis, at the beginning of each fiscal year. The Committee concurred to have staff make the following revisions to the Charter: Under "Roles and Responsibilities" – revise 2nd bullet by adding "and any interim" so it reads: "Review the annual, and any interim, financial statements of the Corporation, making recommendations for action to the Board as needed." Under "Roles and Responsibilities" – delete 3rd bullet as it reiterates the revised 2nd bullet. 	Staff to revise Finance Committee Charter per comments of the Finance Committee and to bring the "red-lined" Charter to the next Finance Committee for their approval.
	Mr. Alvarez referenced the report entitled "Budget vs. Actual Report – as of 6/30/17" (attachment) and reviewed each line item. Mr. Alvarez stated that overall required funds were spent in FY 16-17 with \$2.3M in WIOA funds (which are 2 year funds) carried forward to be spent in FY 17-18 for obligations in training and youth activities. <u>August 2017 Budget vs. Actual Report</u> Mr. Alvarez referenced the report entitled "Budget vs. Actual Report – as of 8/31/17" (attachment) and stated that the larger expenditures are on target. Program	
	services are underspent and this is primarily due to focusing funds towards short-term training vs. long term training. Based on data, individuals receiving short-term training, gain the skills needed to get into jobs quicker, so	

	more individuals are being placed into jobs with shorter turnaround times. Also CSCF is providing more training towards the high growth industry sectors. This has resulted in more than half of the training programs getting cut due to: 1) the training was not in one of the high growth targeted industry sectors and/or 2) training program did not meet CSCF's required performance thresholds in completions and placements. CSCF has also been more effectively coordinating and leveraging resources/funds with individuals who have PELL grants. Dr. Sarnovsky asked Mr. Alvarez to add to the Budget vs. Actual report the budget activities from the same time in the previous year. This way the Committee can compare budget situation from this year to last year during the same time. <u>5 Year Facilities Plan</u> Mr. Alvarez referenced the "CSCF Facilities" memo (attachment) and reviewed the current lease details. Mr. Alvarez stated that CSCF has just completed its five year lease facilities plan and has realized an annual cost savings of nearly 25% in lease costs. Mr. Alvarez also reviewed strategies for a new five year facilities plan. Staff is currently focusing on the Lake County office as it is next to expire on 7/31/18. Based on space needs and efforts to better enhance overall service delivery strategy, staff recommend looking at other options rather than renowing Lake County effice's current lease on patien	Mr. Alvarez to add to the Budget vs. Actual report the budget activities from the same time in previous year. At next meeting, staff will provide an update on the Lake County options to include their further research of the LSSC option and also review West Orange and Osceola offices as these leases are next in line to expire.
	renewing Lake County office's current lease. One option available is sharing space with Lake Sumter State College (LSSC). LSSC is offering CSCF a large portion of space at their Foundation building, adjacent to its main campus on Highway 441. This partnership would create greater synergy of training and job placement. CSCF is further reviewing this space and looking to attain an estimate on build out costs.	
	Ms. Nabors stated that CSCF is internally hosting a focus group with customers to attain their feedback on how they would like to receive CSCF services and what CSCF space should feel like. Dr. Sarnovsky added that attaining feedback from focus groups at each of CSCF's locations would help to track commonalities.

3Q17 Committee Meeting | November 16th

Economic Outlook

Economic Outlook Year-to-Date Indices Returns

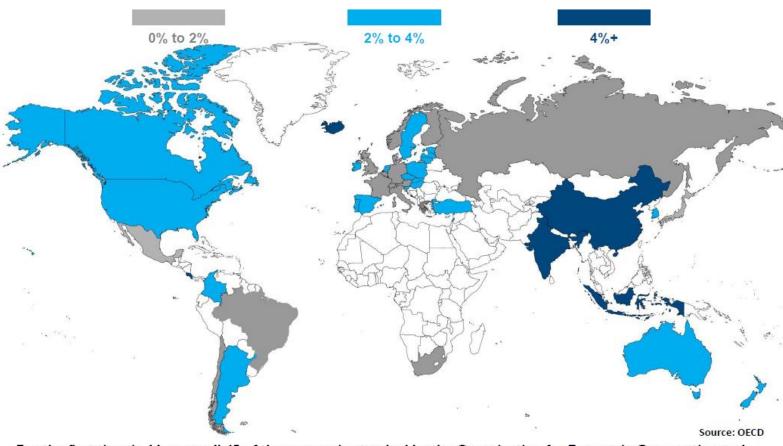

- Markets continued to trend higher with all major equity, fixed income and alternative investment indexes
 across the globe positive year-to-date.
- International and Emerging Markets equities have rebounded strongly as worst case scenarios associated for both European Union disintegration and a hard crash for the Chinese economy have not come to fruition

3Q17 Committee Meeting | November 16th

Economic Outlook Synchronized Global Growth

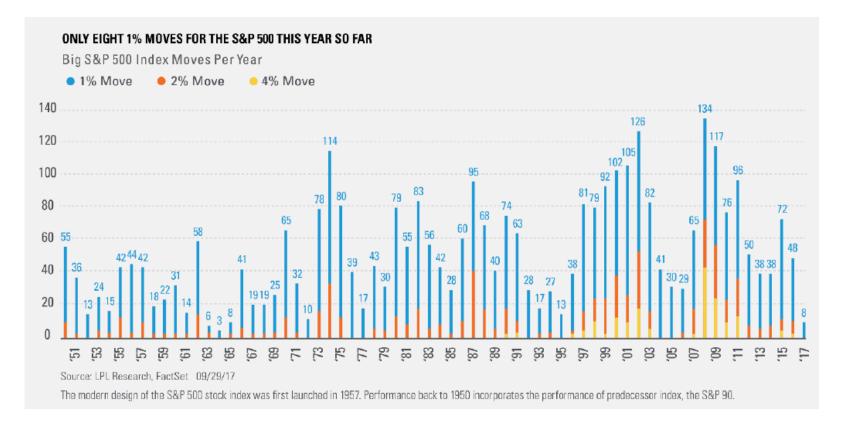

- For the first time in 11 years, all 45 of the economies tracked by the Organization for Economic Cooperation and Development are forecast to grow.
- The U.S. Economy is currently growing at 3.1%, a high number in comparison to the rest of the developed world which are primarily stuck in 0-2% growth rates. The Emerging economies of Asia continue to have the highest global growth rates.

3Q17 Committee Meeting | November 16th

Economic Outlook Market Volatility At Historic Lows

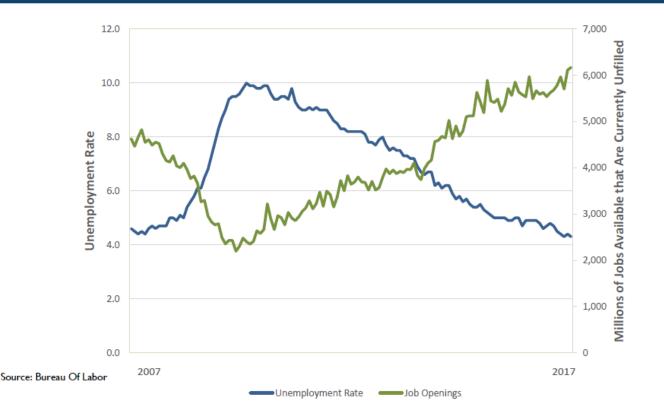

- The S&P 500 has had only 8 trading days with percentage gains or losses greater than 1% in 2017. It has been 52 years, since 1965, that we have experienced this type of minimized volatility. There have also been no daily moves of 2% or greater which is also extremely uncommon.
- This complacency and lack of volatility may enhance investor market related anxiety when volatility inevitably reappears in the marketplace.

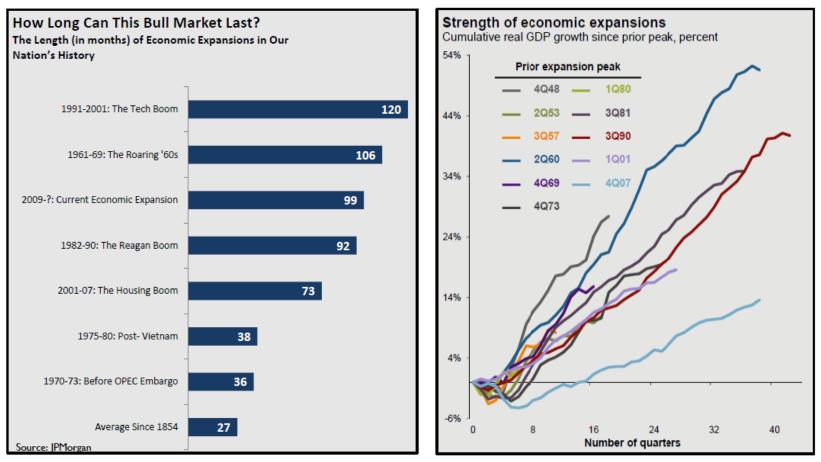

ECONOMIC OUTIOOK A Strong Jobs Market With Record High Levels of Unfilled Jobs

- The unemployment rate dropped from a peak of 10% to a current level of 4.2%. The unemployment rate has not been lower since 2000. Companies are firing workers at a historically low rate, and wages have started to increase as the labor market tightens. Payrolls increased for 90 consecutive months, the longest period of uninterrupted job growth in U.S. history before the recent momentary interruption brought by hurricanes
- For the first time in history, there are more then 6,000,000 unfilled job openings in the United States

ECONOMIC Outlook How Long Can the Current Expansion Continue

- The current economic expansion is now 99 months long, making it one of the longest in our nations history however bull markets never die from old age but rather euphoria, which is not currently at elevated levels
- At the same time, as graphed in the upper right, this current economic expansion has the lowest cumulative total growth of any prior expansionary period
