STATEMENT OF WORK

Services to be provided by the Contractor include the following:

- Serve up to twenty (20) participating school enrolled youth, between the ages of 15 and 19
- The Engage program provides exposure to specialized industry field requirements such as educational paths, necessary skills, networking with existing professionals, relevant work environments, and/or other career on-ramping opportunities. Industry fields of interest include those with high demand or growth trends in the region, as well as those young adults have indicated a strong interest in:
 - Science/Technology (i.e., simulation/digital media, chemistry/forensics, space/aviation, robotics, IT/programming, etc.)
 - Hospitality/Tourism (culinary and non-culinary focused)
 - Healthcare
 - Advanced Manufacturing
 - Logistics
 - Business/Management
 - Sustainability/Environmental
- The Engage program should best support young adults who have an idea of the general field they may want to work in, but do not know much about the jobs these industries represent. Selected youth applicants must be presented with several insights about career opportunities in the field they choose, while also letting them directly attempt the responsibilities of these jobs first-hand. Furthermore, it is expected for participants to build a professional resume, as well as early portfolio work (where applicable), and understand required industry certifications by the end of their engagement.
- Program must provide participants with the following outcomes by the end of their hosted program:
 - Participants can identify the necessary skills, education/certification, tools, and/or other resources for the career cluster/field they engaged within
 - Participants have started to hone their skills within this career field/industry, and gained new aptitude levels that - from a pre-assessment entering the program to a post-assessment at the conclusion of the program - can be clearly recognized
 - Participants have learned the ability to network with professionals within that career field/cluster and gain knowledge from questions they ask
 - Participants have created and hold portfolio examples of their own to share with future employers and/or other workforce opportunities
 - Where necessary, participants can articulate what about the career cluster/field was not appealing to them, and therefore, will work with CSCF staff post-engagement with the program to understand other opportunities

These outcomes will be tracked within CSCF's case management software, CareerEdge (accessible at www.careeredgecf.com/admin). All partners will be provided with at least one log-in per organization and along with training from CSCF, be able to track these outcomes and impact metrics before, during, and after their hosted program.

- This Engage program must provide a field-focused itinerary with the ability for participants to upskill their abilities and partner with CSCF to capture those upskilled talents and/or portfolio projects within CSCF's CareerEdge Summer Youth Program portal.
- Provide networking opportunities for participants with seasoned professionals from the targeted industry field
- Provide necessary tools and/or access to tool tutelage resources for industry field-related resources for entry-level preparation
